

Model 664 Cardioid Dynamic — Designed specifically for PA. Cardioid pattern at all frequencies. Permits close talking without "booming" or bass accentuation. Provides better discrimination against unwanted sound. Less feedback than any cardioid PA microphone built. Blast filter minimizes wind effect. Acoustalloy diaphragm shielded from dust and magnetic particles. Response 40-15,000 cps. Output — 55 db, On-Off switch 150 ohm and high impedance. Impedance changed by moving one wire in MC4 cable connector. Pressure-cast case. Chrome finish. 18' cable. Size $7\frac{3}{4}$ " long, less stand coupler, $1\frac{7}{8}$ " diameter. Net weight, 1 lb. 10 oz.
