## CONDENSER MICROPHONES

The famous Shure "40" series condenser microphones bring you laboratory-controlled quality and exceptional performance at low cost. Air-damped, stretched-diaphragm transmitter head and two-stage amplifier. Full barometric compensation. Excellent frequency response. Requires 6 volts at 60 M.A. and 180 volts at 3 M.A. from batteries or Shure Model 41A Power Supply. Bottom is threaded for attaching to stand. Furnished complete with two type '30 tubes, 12 ft. shielded, rubber-covered cable, and suspension adapter.
