

Impressively styled . . . brilliantly engineered with a combination two-element interior structure of improved design. Sound is effectively controlled to produce the true Super-Cardioid pickup pattern which reduces feedback to the minimum. The Model 77 features a wide-range pickup at the front and a sharply attenuated ouput at the rear ... with approximately 15 db discrimination between front and rear at all frequencies. Response: ± 5 db from 70 to 10,000 c.p.s. Level: 62 db below 1 volt/ dyne/sq.cm. at high impedance. Built-in switch giving 50, 200, 500 ohms, or high impedance output permits use with any standard equipment. Smooth, tilting action and quick-disconnect plug. Standard %"-27 mounting. Finished in gunmetal gray and chrome. Recommended for recording studios, commercial broadcasting, and high quality public address systems.
