

MODEL 98—CARDIOID

Combines modern, compact design with excellent directional characteristics. These characteristics make it live to sounds originating in front of it, dead to sounds from the rear. This feature reduces unwanted audience noises, mechanical equipment noises and background noise from ventilating, heating or air conditioning equipment. In P.A. work it eliminates accoustical feedback. Truly outstanding performance for very little cost. Single dynamic element construction. Includes 20-ft. cable. Response, 65-11,000 cps. Front-to-back ratio: 20 db. Level, —52 db. Matching G-7 stand available.

List Price (Light grey) . . \$59.50

List Price (Satin chrome) . \$69.50

For on-off switch models, specify S-98 and add \$4.00 to above prices.
