

UNIVERSAL MODEL "KK"

An exceptionally
rugged Double Button
broadcast microphone

Code Word "DUCK"

LIST PRICE \$50.00

A substantial, solid, two-button broadcast microphone, with a very minimum of hiss. Model "KK" is carefully constructed of the finest materials with a 24-Kt. pure gold spot center alloy diaphragm which is held under tension. Diaphragm has a thickness of only .002 in.

The frequency range of Model "KK" is all that can be desired in a carbon microphone, namely from 50 to well

over 6000 cycles. The buttons are of 200 ohms resistance each. Entire microphone finished in 24-Kt. polished gold. It is 2½ inches in diameter and 1¼ inches thick. Made in three sensitivities: S, very sensitive; M, medium sensitive (Standard) and D, highly damped. Each unit is carefully laboratory tested before shipment.

Net weight, 1 ¼ lbs. Packed weight, 2 lbs.

Frequency response curve of Model "LL" is similar to the characteristics shown above for Model "KK," except that the range has been extended on both the low and high frequency ends, making this the superlative microphone for musical broadcasts.
